To note

Community Transport Sussex (CTS) have been advised that there is £16,000 in unspent s106 transport funding for a local community bus service (relating to the Barratts development). This funding is being held by WSCC who have recently confirmed that they have no plans to spend it, and that CTS can apply to use it directly. CTS have been put in touch with WSCC to discuss further and potentially make an application.

A new salt spreader has been purchased for the works team at a cost of £173 ex VAT. This decision was taken to avoid delay given recent weather conditions.
